

Subsidised Construction Skills Training

Harness has been awarded funds to support the development of in-demand construction skills. For those eligible, we access funding via Construction Skills Queensland (CSQ) for specific qualifications and short courses that supports targeted skill development for associated work opportunities.

CSQ Subsidised Training Explained

Construction Skills Queensland is an independent, not-for-profit, industry-funded body supporting employers, workers, apprentices, trainees and career seekers in the building and construction industry. CSQ provides funding to reduce the financial obstacle to training, making upskilling an affordable option for many more individuals in the construction industry. CSQ-funded training is delivered by a range of selected registered training organisations (RTOs) across Queensland. CSQ contributes towards the cost of specific courses to reduce the cost for participants and it is paid directly to the contracted RTO, generally between 75% and 100% of course costs. Courses undertaken by eligible apprentices are 100% subsidised.
